- Auto-leveling System
- Co2 Detector
- Exterior Shower
- Ladder
- Microwave
- Refrigerator
- Skylight
- Solar Panels
- Television
- Water Heater

DESCRIPTION: If you don't want something huge but lots of room inside, this has the "open floor plan" of trailers. This is a heavy built/insulated trailer rated 4 season from the manufacturer, so it keeps things cooler in the summer and warmer in the fall and winter. The awning is huge compared to most trailers at 18ft long and it extends out 8ft. Even on a rainy day you can sit under the awning with a propane fire pit and enjoy some outside time. If you are in the need of electronic stimulation, the TV and DVD player run off of the 12v system so you do not need to be plugged in. This trailer is made for being offgrid. It holds 80 gallons of fresh water and the holding tanks are 40 gallons each. The solar can usually keep up enough to top up the batteries everyday, even on cloudy days. The outdoor shower has been upgraded to a spray nozzle on a hose so you can wash yourself off, but also rinse off dirty mountain bikes or other toys that you get dirty on your adventures. The main bed is a full size queen...

CSA Approved MVSA Seal RVIA Seal & more
